Courses in this template are ordered to assure prerequisite and corerequisite courses are satisfied. Students who take courses in an order that differs from this template are responsible to consult an advisor about the consequences of failing to complete some courses in the timeframe shown, particularly those courses in the core CHME curriculum and the associated science fundamentals. Detailed prerequisite requirements for all courses can be found in the NMSU Undergraduate Catalog in the Course Descriptions section. A CHME prerequisite map is found on chme.nmsu.edu at [/Academics/Undergraduate/](http://Academics/Undergraduate/).

3 credits of the VWW institutional requirement are satisfied by 9-credit hour rule (CHEM 313, 314, and 433 found in the "required courses" section of the undergraduate catalog.

CHME 323L may be taken either semester; CHME 423L may be taken either semester.

* Students may need to take an additional elective these semesters to maintain the minimum 15 credits for scholarship eligibility.
